Date: 29.01.2015

Subject: Recruitment in the colleges.

Dear _____ (Principals of the Colleges)

This is to acknowledge the efforts made by you in the efficient functioning of the college. However, one area which needs urgent attention is the issue of making appointments to the teaching posts lying vacant in the colleges. Prompt and immediate action is required on your part in this respect if interviews have not been held. The University has tried to pursue the issue through various meetings of the officials of the University with the Principals and other officials of the college and through periodic telephonic reminders followed up with letters to the concerned colleges.

The matter is also of concern to some statutory Standing Committees of Parliament and the University is in the process of preparing a list of colleges that are unable or unwilling to expedite the process of selection committees.

On a priority basis but not later than February 3, 2015 kindly communicate by email and fax to the office of the Dean of Colleges, the status report and the preparedness in terms of rosters and schedule for interviews at your college. If your college does not attend to the recruitment of teachers immediately, your name may have to be forwarded to the Parliamentary Standing Committee, which has been requiring a regular update on the issue.

Your cooperation in this respect is sincerely requested.

Kindly acknowledge the receipt of this letter.

With best regards

Dean of Colleges
